Delivering the Highest Caliber Technical Field Expertise for an Unrivaled Client Experience

Each J.S. Held consultant brings a highly-developed understanding of the challenges presented by construction, property damage, and environmental, health and safety issues, an understanding that can only be cultivated through **direct field experience**.

Simply put, J.S. Held consultants are **best in class** because we leverage our experience with our unwavering dedication to exceeding our clients' expectations.

J.S. Held consultants hold world class credentials. We are experienced specialty contractors, schedulers, estimators, engineers, construction managers, and environmental, health and safety professionals.

We have collectively managed all phases and aspects of construction on over **100,000 assignments** with a total construction value of over \$100 billion.

Due to our vast technical and field experience, we provide the highest caliber of service to our clients.

Residential Property

Project Approach

Our work is distinguished for three specific reasons.

First, we provide our consultants with continuous education on the **latest technological advancements** within the industry to ensure a consistent work product of the highest caliber. Clients will find that our **meticulous attention to detail** produces the precision required for superior performance.

Secondly, we believe that every successful project is the result of a comprehensive **plan and execution**.

To ensure this success, we assemble project teams with the relevant expertise to address the specifics of the assigned project, leveraging the best of our talent to achieve the goal.

The preparation of our work product is an ever evolving process, typically performed in phases that enables us to review the results of each completed phase and plan for future work. Analysis of findings is focused and refined as our work progresses and information emerges.

Lastly, we remain steadfast in our dedication to our company values with **focus on service** at the forefront.
