

Construction Claims Consulting

Since our founding in 1974, J.S. Held has been involved in over 50,000 construction related matters across the globe. As one of the nation's leading construction consultants, J.S. Held has a reputation for taking practical construction expertise and applying it in a consultative capacity to help work through complex construction disputes.

We provide construction expertise to attorneys, contractors, owners, and insurance companies in public, private and government contracting.

J.S. Held has a staff of multi-disciplined specialty contractors, project and construction managers, engineers, cost and damages experts, scheduling and delay experts, and contract administrators to tackle the most complex liability, causation and damage aspects to a claim.

- Claim preparation and evaluation
