

**JS | HELD**

**J.S. Held  
leads the industry  
with specific  
expertise in all  
matters resulting  
from building  
damage  
sustained during  
construction**

McCarthy-Mercy Hospital  
Edmond, Oklahoma

## Builder's Risk

J.S. Held is the industry leader in consulting on and testifying in large, complex matters involving buildings that have been damaged during the course of construction.

Our team of construction professionals calls upon decades of experience in constructing large projects including commercial, industrial, hospitality, transportation, sports facilities, infrastructure, and power for many of the largest contractors in the nation.

Our team is experienced in:

- Estimating and damages calculations
- Project monitoring
- Invoice review
- Schedule analysis
- Period of Restoration
- Delay analysis
- Expert reports and testimony
